

LessonMate

Online Journal for Missed Lessons

LessonMate is an online lesson journal that allows your teacher to create lesson notes in the event you can't attend a scheduled lesson!

Through text, video, Pdf's, Mp3's and YouTube clips, LessonMate will help with consistent engagement and progress. We all want that:)

The Missed Lesson

The MOST IMPORTANT thing when learning a musical instrument is consistent weekly engagement. If a student has to miss a lesson, the teacher will post a detailed, personalized make-up lesson in their LessonMate account during their normally scheduled time. This will be done every time a student misses. This ensures students (and parents) remain engaged and informed, even when they miss. Again, the goal here is consistent understanding and weekly progress.

[Here's a video](#) that further explains the process.

How to use LessonMate

- You will receive an email with login information and an introductory video when your teacher posts your 1st LessonMate.
- You will also receive an email reminder with a link to your LessonMate account every time a new LessonMate has been created.

We ask you, the student and/or parent, to be diligent about checking in to LessonMate. It just takes a minute and we feel confident that this 'check in' will really aid this awesome process we all are engaged in- life long musicianship.

Please let us know if you've got any questions!

Cheers!
